

BREAKER SPORT

Breaker Sport is a NEW development in the Breaker range of quality wetting agents. Specifically designed as a concentrated and economical surfactant for use on turf mown at a height of greater than 10mm, e.g. fairways, sportsfields.

Breaker Sport offers new strategies for grounds people and greenkeepers to optimise irrigation and water management on large area sports turf. The new concentrated formula allows the professional turf manager a variable application programme depending on prevailing climatic conditions, ensuring efficient and economic product use.

Ideally apply **Breaker Sport** on a monthly basis from March through to October to ensure correct moisture air balance in the soil. Full rate applications should be used whenever irrigation systems are employed, however a half rate (10lts per hectare) can be used when sufficient natural rain exists. The full rate will enhance applied irrigation infiltration into the soil whilst assisting in maintaining a correct moisture air balance. The half rate will help percolation of natural rain maintaining a firm surface whilst allowing adequate hydration of the root zone.

Product Detail

Pack Sizes – 10, 120 & 200 litres
Contains co-polymer linked surfactants, water surface tension reducer, soil hydration moderator, and super penetrant

APPLICATION RATES				
Area of use	Full rate	Half rate	Water Volume	Area
Golf fairways, sportsfields	20 litres	10 litres	700-900 litres	1 ha

RECOMMENDED PERIOD OF USE

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----

LIVID FORMULATION

SURFACE WETTING

ROOT ZONE IMPROVER

SOIL PENETRANT

ROOT DEVELOPER

- ▶ **Three key modes of action available for sportsfield and fairway applications**
- ▶ **Optimises water use efficiency whilst conserving surface moisture that can be lost through evaporation**
- ▶ **Economical application, ideally suited to large area applications**
- ▶ **Enhances turf quality and consistency necessary for sports pitch performance**
